DETAILED ACTION

Claim Objections

1. Claims 1-31 are objected to because of the following informalities: Claim 1 and those claims dependent thereon recite: "A compound of the formula (R1)(R2)(R3)(R4)A⁺, X⁻ I wherein A is phosphorous; X- is n anion; and wherein R1 (R5O)(R5O)(P=O)-R6- V wherein R5 is a lipid moiety...." However, this claim is not grammatically correct since it does not clearly recite the relationship between R1 and formula V. Appropriate correction is required.

Response to Arguments

2. Applicant's arguments with respect to claims 1-31 have been considered but are moot in view of the new ground(s) of rejection.

Response to Amendment

- 3. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 4. Claims 1-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. (New Matter rejection).

Applicants have amended claim 1 to provide an additional bond extending from the R6 moiety of formula V. However, there is no support for this additional bond since there is already a bond extending from R1 to A⁺ of formula I. Additionally, Applicants have amended claim 1 to

recite the new range limitation "2 to 4 carbon atoms," however Applicants provide no support for this new range in either the specification or the claims as originally filed. Applicants must amend claim 1 to remove the new matter in response to this Office Action.

- 5. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 6. Claims 1-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants have amended the instant claims to recite wherein "R6 is alkyl of 2 to 4 carbon atoms" and toward the last lines of the claim it also recites wherein "R6, R7 and R8 are alkyl of 1 to 4 carbon atoms." There are two definitions for the term R6 recited in claim 1. This renders the scope of claim 1 vague and indefinite, therefore claim 1 fails to provide clear warning to others as to what constitutes infringement of the claimed invention.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this

final action.
